

Articles are considered for publication on the understanding that they have not been submitted elsewhere, and that if accepted for publication in *Disasters*, they will not be published elsewhere without the written consent of the Editors. *Disasters* is a fully refereed journal. It is the responsibility of the author to obtain permission for using any previously published material. The publication of an article does not necessarily imply that the Editorial Board accepts the views or opinions expressed in it.

A distinction is drawn between academic or research papers, which should not normally exceed 8,000 words, and field studies or situation reports, which should not exceed 5,000 words. Shorter articles, such as conference reports, comments, letters and items of information are also welcomed. Each named author of articles and reports will receive one complimentary copy of the issue of the journal in which their work is published. Book reviews or offers of book reviews relevant to disaster studies should be sent to the Book Reviews Assistant at the address below.

### **Submission procedures**

Submissions may be sent electronically or posted to [disasters@odi.org.uk](mailto:disasters@odi.org.uk) or to the Editors, *Disasters*, Overseas Development Institute, 111 Westminster Bridge Road, London SE1 7JD. All material should be: in Word or WordPerfect, in English and typed double-spaced on one side of the paper only. Articles should be accompanied by an abstract of not more than 150 words. Bibliographic references should be incorporated into the text using the author/date system, with page numbers where appropriate. All references cited should be listed alphabetically at the end of the paper, in the style used in this issue, for example:

Franks, D. (1989) Hazard Mitigation. In J. Blum and C. Phillips (eds.) *International Hazards*. Collins, London.

Parker, D.J., C.H. Green and P.M. Thompson (1999) *Urban Flood Protection: A Project Appraisal Guide*. Gower Technical Press, Aldershot.

Steers, J. (1998) The East Coast Floods. *Geographical Journal* 11(9): 280–98.

Notes should be kept to a minimum, numbered and presented together at the end of the piece. The title page should include the name and affiliation of the author(s) and the full address (including e-mail, if possible) to which editorial correspondence should be sent.

Illustrations (b/w photos, line-drawings or tables) must be submitted with the text, with captions. Electronic versions of these need to be continuous tone images as .tif at 250–300dpi, line art or combination line/tone as .eps or .tif at 800dpi.
